

RIISS00060

Traffic Management Implementer Skill Set for Urban Streets and Low Volume Rural Roads

RELEASE 2 - 19/10/2022

Australian Institute of
Vocational Development

Traffic Management Implementer 1 (TMI1)

SKILL SET

INFORMATION

This skill set addresses the skills and knowledge required for those responsible for traffic management implementation on Temporary Traffic Management Category 1 environments as described in the Austroads Guide to Temporary Traffic Management.

 This skill set is delivered over two days, plus the completion of three different set ups based on traffic management plans and traffic guidance schemes.

 This skill set is delivered in a range of locations across Melbourne and Regional Victoria.

 **Pathways Information**
The units provide credit towards a number of Certificate II and Certificate III qualifications in the RII Resources and Infrastructure Industry Training Package and other training packages, such as RII30920 Certificate III in Civil Construction or equivalent.

“The trainers are able to teach their skill sets to their students in a way that’s not intimidating. I was able to learn at my own pace and was taught how to operate safely and efficiently on modern equipment. My trainers went above and beyond in all aspects of the course.”

UNITS OF COMPETENCY

To successfully complete the RIISS00059 - Traffic Controller Skill Set for High Volume Roads, you will need to complete the unit below:

Unit Code	Unit Name
RIICOM201E	Communicate in the workplace
RIIRIS301E	Apply risk management processes
RIIWH302E	Implement traffic management plans
RIIWH303	Position, set up and program portable traffic control devices

SKILL SET REQUIREMENTS

Successful completion of the following four units of competency inclusive of practical experience applying the relevant skills and knowledge in a temporary traffic management workplace, completing at least 3 different types of set ups:

- RIICOM201E Communicate in the workplace
- RIIRIS301E Apply risk management processes
- RIIWH302E Implement traffic management plans
- RIIWH303 Position, set up and program portable traffic control devices.

The assessment for the units of competency comprises both theoretical and practical components. The practical assessment component is to be undertaken after the practical experience is gained. Practical experience requirements must be completed on declared Temporary Traffic Management Category 1 roads within at least six months of successfully completing the theoretical component.

LICENSING/REGULATORY INFORMATION

This skill set has been created to align to the requirements of individuals responsible for traffic management implementation on a site and road workers under their direction, as described in the Austroads Guide to Temporary Traffic Management on Temporary Traffic Management Category 1 environments. Licensing, legislative and certification requirements that apply to this skill set can vary between states, territories and industry sectors. Users must check requirements with relevant body before applying the skill set.

IMPORTANT INFORMATION

ENTRY REQUIREMENTS

An individual wishing to enrol in this skill set must hold the unit CPCCWHS1001 Prepare to work safely in the construction industry or its equivalent unit. Additionally, applicants will need to undertake an LLN assessment and be over the age of 16 at the time of enrolment.

DURATION & DELIVERY

This skill set is delivered over two days, plus the completion of three different set ups based on traffic management plans and traffic guidance schemes. This skill set can be delivered across multiple locations across Victoria:

- Sunshine
- Gladstone Park
- Epping
- Frankston
- Cranbourne
- Ballarat
- Bendigo
- Geelong
- Horsham
- Swan Hill
- Shepparton
- Warrnambool
- Portland
- Maryborough
- Wodonga
- Pakenham
- Ararat

RECOGNITION OF PRIOR LEARNING

Recognition of Prior Learning (RPL) involves an assessment of your knowledge and experience of your previous and current skills, and compares them to the requirements of an Austroads Temporary Traffic Management Training program (skill set).

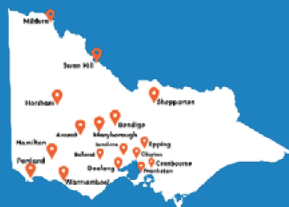

If you can clearly show that you have already gained the equivalent skills and knowledge, and that skill and knowledge is current, then you may be granted recognition of prior learning for an Austroads Temporary Traffic Management Training program (skill set).

The evidence you provide may include knowledge, experience and skills gained through part-time, full-time or casual work.

SKILL SET FEES

Full Fee: \$550.00
