ttm 
approved training
provider

**03 9310 5980****info@aivd.com.au****aivd.com.au**

The trainers are able to teach their skill sets to their students in a way that's not intimidating. I was able to learn at my own pace. My trainers went above and beyond in all aspects of the course."

- Darren

FAST TRACK YOUR SKILLS IN SHORT TERM TRAFFIC MANAGEMENT

This short course supports worksites undertaking Short Term Low Impact (STLI) activities where the use of fully accredited Traffic Management personnel is not required.

The course focuses on ensuring compliant Work Health and Safety (WHS) practices, enabling authorised workers to safely manage traffic for STLI works without the need for full Traffic Management accreditation.

What This Course Involves

To successfully complete the Short Term Low Impact Worker course, you must:

- hold a Construction Induction White Card
- successfully complete the TTM Short Term Low Impact course including actively participating in all class activities and completing any theory assessment

Course Fees

Fee for Service: \$250.00

What Is Issued on Completion of The Course

On successful completion of the course, you will receive a Certificate of Completion which states that you have successfully completed the TTM Short Term Low Impact Worker course. This certificate will also have the statement below.

This certificate provides the individual with the skills to perform Short Term Low Impact duties in Victoria which excludes the individual from performing the functions of a Traffic Controller, Traffic Management Implementer OR Traffic Management Designer.
